

TROPICAL CYCLONE BULLETIN NR. 27

Super Typhoon GORING (SAOLA)

Issued at 11:00 PM, 29 August 2023

Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

VIOLENT, LIFE-THREATENING CONDITIONS NOW PREVAIL OVER PORTIONS OF BABUYAN ISLANDS AS GORING INTENSIFIES INTO A SUPER TYPHOON

Location of Center (10:00 PM)	
<p>The center of the eye of Super Typhoon GORING was estimated based on all available data over the coastal waters of Calayan (Babuyan Is.), Cagayan (19.5°N, 122.5°E)</p>	
Intensity	
<p>Maximum sustained winds of 185 km/h near the center, gustiness of up to 230 km/h, and central pressure of 935 hPa</p>	
Present Movement	
Northwestward at 10 km/h	
<p>Extent of Tropical Cyclone Winds</p> <p>Strong to typhoon-force winds extend outwards up to 280 km from the center</p>	

TRACK AND INTENSITY FORECAST

TROPICAL CYCLONE BULLETIN NR. 27
Super Typhoon GORING (SAOLA)

Issued at 11:00 PM, 29 August 2023

Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
5 Wind threat: Typhoon-force winds	The northeastern portion of Babuyan Islands (Babuyan Is.)		
	Warning lead time: 12 hours Range of wind speeds: 185 km/h or higher (Beaufort 12) Potential impacts of winds: Extreme threat to life and property		
4 Wind threat: Typhoon-force winds	The southern portion of Batanes (Sabtang, Uyugan, Ivana, Mahatao, Basco) and the northwestern and southeastern portions of Babuyan Islands (Camiguin Is., Calayan Is.)	-	-
	Warning lead time: 12 hours Range of wind speeds: 118 to 184 km/h (Beaufort 12) Potential impacts of winds: Significant to severe threat to life and property		
3 Wind threat: Storm-force winds	The rest of Batanes, the rest of Babuyan Islands, and the extreme northeastern portion of mainland Cagayan (Santa Ana)	-	-
	Warning lead time: 18 hours Range of wind speeds: 89 to 117 km/h (Beaufort 10 to 11) Potential impacts of winds: Moderate to significant threat to life and property		
2 Wind threat: Gale-force winds	The northern and eastern portions of mainland Cagayan (Gonzaga, Santa Praxedes, Claveria, Sanchez-Mira, Pamplona, Abulug, Ballesteros, Aparri, Buguey, Camalaniugan, Santa Teresita, Allacapan, Lal-Lo, Lasam, Gattaran, Baggao, Peñablanca), the northern portion of Ilocos Norte (Pagudpud, Adams, Bangui, Dumalneg), and the northern portion of Apayao (Calanasan, Luna, Santa Marcela, Flora, Pudtol)	-	-
	Warning lead time: 24 hours Range of wind speeds: 62 to 88 km/h (Beaufort 8 to 9) Potential impacts of winds: Minor to moderate threat to life and property		
1 Wind threat: Strong winds	The northern and eastern portion of Isabela (Dinapigue, San Mariano, Ilagan City, Tumauni, San Pablo, Cabagan, Maconacon, Divilacan, Palanan, Santa Maria, Santo Tomas, Quezon, Delfin Albano), the rest of Ilocos Norte, the rest of Cagayan, the rest of Apayao, northern portion of Abra (Tineg, Lagayan, Lacub, Malibcong) and the northern portion of Kalinga (Balbalan, Pinukpuk, Rizal, City of Tabuk)	-	-
	Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property		

TROPICAL CYCLONE BULLETIN NR. 27
Super Typhoon GORING (SAOLA)

Issued at 11:00 PM, 29 August 2023

Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

HAZARDS AFFECTING LAND AREAS

Heavy Rainfall

Forecast accumulated rainfall from tonight to tomorrow evening

- **Greater than 200 mm:** Babuyan Islands and Batanes
- **100-200 mm:** Ilocos Norte, the northern portion of Apayao, and the northwestern portion of mainland Cagayan.
- **50-100 mm:** The northeastern portion of mainland Cagayan, Abra, Ilocos Sur, and the rest of Apayao

Forecast rainfall are generally higher in elevated or mountainous areas. Under these conditions, **flooding and rain-induced landslides are expected** especially in areas that are highly or very highly susceptible to these hazards as identified in hazard maps and in localities that experienced considerable amounts of rainfall for the past several days.

The **enhanced Southwest Monsoon** will also bring occasional or monsoon rains over the western portions of Central Luzon, Southern Luzon, and Visayas over the next three days. For more information, refer to **Weather Advisory #11 for Southwest Monsoon** issued at 11:00 PM today.

Severe Winds

The **wind signals warn the public of the general wind threat over** an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Violent, life-threatening conditions** from typhoon-force winds are possible within any of the areas where Wind Signals No. 4 and 5 are hoisted, resulting in **significant to extreme impacts**.
- **Moderate to significant** impacts from storm-force winds are possible within any of the areas where Wind Signal No. 3 is hoisted.
- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2
- **Minimal to minor impacts** from strong winds are also possible within any of the areas under Wind Signal No. 1.

The **enhanced Southwest Monsoon** will continue to bring **gusty conditions** over the following areas not under any Wind Signal, especially in coastal and upland/mountainous areas exposed to winds:

- **Tonight and tomorrow:** Ilocos Region, Cordillera Administrative Region, Zambales, Bataan, Bulacan, Aurora, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, and Western Visayas
- **Thursday and Friday:** Ilocos Region, Cordillera Administrative Region, Zambales, Bataan, Bulacan, Pampanga, Aurora, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, and Western Visayas

HAZARDS AFFECTING COASTAL WATERS

A **Gale Warning is in effect** for the seaboards of Luzon, seaboards of Visayas, and the northern seaboard of Mindanao. Disruption in civilian maritime activities is expected over these areas (e.g., suspension of sea travel) due to hazardous sea condition. For more information, refer to **Gale Warning #12** issued at 5:00 PM today.

TROPICAL CYCLONE BULLETIN NR. 27
Super Typhoon GORING (SAOLA)

Issued at 11:00 PM, 29 August 2023

Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

TRACK AND INTENSITY OUTLOOK

- GORING is forecast to follow a mainly northwestward or west northwestward path across the Luzon Strait from today until it exits the Philippine Area of Responsibility (PAR) tomorrow evening or on Thursday morning. The latest track forecast indicates that the super typhoon may pass very close or make landfall in the vicinity of Babuyan Island (Cagayan) and Batan-Sabtang Islands (Batanes) between tonight or tomorrow afternoon. Regardless of landfall or close approach point, GORING will bring typhoon-force conditions over most of Batanes and Babuyan Islands between tonight and tomorrow afternoon. The super typhoon will be passing through the region at or near its peak intensity.
- Outside the PAR region, the typhoon will continue its west northwestward movement for the remainder of Thursday before turning more westward on Friday, then west southwestward on Sunday (e.g., moving nearly parallel to the coast of Guangdong, China, although a landfall over the mainland China area on Sunday is not ruled out). Increasingly unfavorable conditions over the waters off Guangdong will trigger a weakening trend and by Sunday, it will have weakened to minimal typhoon strength.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 2:00 AM tomorrow.
